

How to Make Money Promoting Julie Stoian's Programs + Services

Okay, so if I'm going to blow ALL the regular Joe Guru's outta the water, I need some help with visibility and promotion. So here is a rundown of the things I do, and where and how to promote them to people who need it!

The Digital Gangsta

This is my flagship program and is for ANYONE looking to get an online business going. Specifically for people who want to be coaches, consultants, course creators, services providers, etc. It's not a great fit for a local business, unless that local business wants to build an online arm (like a therapist or photographer). Then it DOES work!

The Digital Gangsta covers blogging, branding, list building, email marketing, launching, course creation, copy, sales funnels, business development, mindset, social media, and more. It's literally a one-stop shop course program for online business.

PLEASE MAKE SURE YOU DO THIS IN AN INCOGNITO WINDOW ON YOUR WEB BROWSER!

You have the choice to send them to the FREE WEBINAR first, or you can send them right to the sales page. Please note that the sales page has a 7-day countdown timer, and they WON'T get the email sequence with it unless you send them to the webinar first.

If you need a testimonial page, I do have one here.

Commission is 20%.

There are other things you can be an affiliate for in the dashboard area. Things like the CYLL Network (the FB group and Slack community), and any other programs you see in your affiliate area.

Ultimately, the best and most profitable program is The Digital Gangsta, so that's what is best to push. But feel free to promote ANYTHING you see in your affiliate area!
